

# Program 4

New Attempt

---

**Due** Mar 19 by 12:59pm    **Points** 100    **Submitting** a file upload  
**Available** after Mar 6 at 8am

---

Write the encryption program. Please note the restrictions as outlined in the specifications. This is an exercise in writing string methods. You are not free to write this program anyway you please. You must use the main method as is without changes. Your job is to write the four methods that are needed to finish the code. The main method and the four method signatures are given in the specifications the specifications. You will need both string and character functions for this program.
